### ABSTRACT

The type and repository information for *Neoperla furcomaculata* Kong & Li, 2014 is provided to make the name available and valid.

**Keywords:** Plecoptera, Perlidae, type and repository information, *Neoperla furcomaculata*

---

### INTRODUCTION

Kong *et al.* (2014) described 3 new species of *Neoperla* from Hainan Province, China. *Neoperla furcomaculata* Kong & Li, 2014 inadvertently lacked type specimen data and depository information, leading DeWalt *et al.* (2016) to list it as a nomen dubium. We provide these data now. The result being that *N. furcomaculata* Kong & Li, 2014 remains a nomen dubium and becomes a primary synonym of *N. furcomaculata* Kong & Li, 2016.

#### *Neoperla furcomaculata* Kong & Li, 2016

*Neoperla furcomaculata* Kong & Li, 2014. In Kong, Lv & Li, 2014:433. New synonym

**Type material:** Holotype: male, **China:** Hainan Province, Changjiang County, Bawangling, National Nature Reserve, upstream of Yajia River, 1000 m, 19.121187 N, 109.083491 E, 2006.VII.7-11, Jie

Zeng, deposited in the Insect Collection of Henan Institute of Science and Technology (HIST, PLT1602) in Xinxiang.

### ACKNOWLEDGEMENTS

We are indebted to Dr. R. Edward DeWalt (Champaign, Illinois) and Dr. Boris C. Kondratieff (Fort Collins, Colorado, USA) for pointing out the present problem.
